

Pristine Clean

Our Commitment During COVID-19

Customer safety, along with our team, is our number one priority at Tonto Bar & Grill. With a close eye on COVID-19 guidelines, the CDC, and the Arizona Restaurant Association, we have refined our cleaning, sanitizing, and safety guidelines to instill the best possible practices.

OUR TEAM

At all times, all our team members are following CDC guidelines and are comprehensively trained in COVID-19 safety and sanitation protocols. All team members wear masks as well as disposable gloves in the appropriate areas.

SANITIZING TECHNOLOGY

We have initiated electrostatic sprayers' to sanitize every surface throughout the restaurant, common areas, and kitchen areas on a routine basis.

PUBLIC SPACES

We sanitize all guest contact items and surfaces, including tables, chairs, menus, check presenters, pens, and other reusable guest contact items after every use. We have reduced the number of guests served each day to accommodate the recommended social distancing. Tables and seating are physically distanced between each traveling party, six feet or as otherwise advised by health authorities. All straws are individually wrapped. Servers will not handle guest's napkins. All food and beverage items are placed directly on the table, not handed to guests.

OUR CULINARY TEAM

Kitchen preparation areas are deep-cleaned and sanitized multiple times per hour. All employees wear masks and gloves. They wash hands or use sanitizer continuously before, during, and after a shift and between glove changes.

YOUR ASSISTANCE

If you feel ill or not quite up to par, please stay at home and help us stop the spread of this virus. We offer our complete food menu with curbside pick up as well as delivery through Doordash. Stay healthy, be wise, and do your part in keeping us all safe.

WE'RE LISTENING

If you have any questions or concerns about our guidelines or practices, please do not hesitate to contact us at [Tontobarandgrill.com/contact-us](https://www.tontobarandgrill.com/contact-us)
